# DESIGN SERVICES

With a dedicated and passionate team of designers and project managers, we provide the best selection of office furniture from leading manufacturers. Whatever your preferred taste or style, we have the perfect match. By gaining a key understanding of your business, we apply our extensive design experience and knowledge to fulfil your needs.

Sit back and let our design team manage your storage wall project. We will guide you through the entire process, ensuring that you are happy with the choices made to fit with your buying decisions. Whatever your business size or sector, we will work with your budget, ensuring that you are delighted with the results.

You benefit from access to our 2D layouts and 3D rendered visuals, which provide you with an overview of the finished design. This way, there are no unexpected surprises as you understand precisely how your new office furniture will look once installed.

## 2D & 3D LAYOUTS

Our 2D layouts provide a fantastic way for you to visualise the design of your new storage wall before completion. Our team of designers will discuss schemes with you once they have measured the space.

The site survey, space planning and 2D layouts are free of charge and all part of the process, showing precisely how the proposed office layout will look.

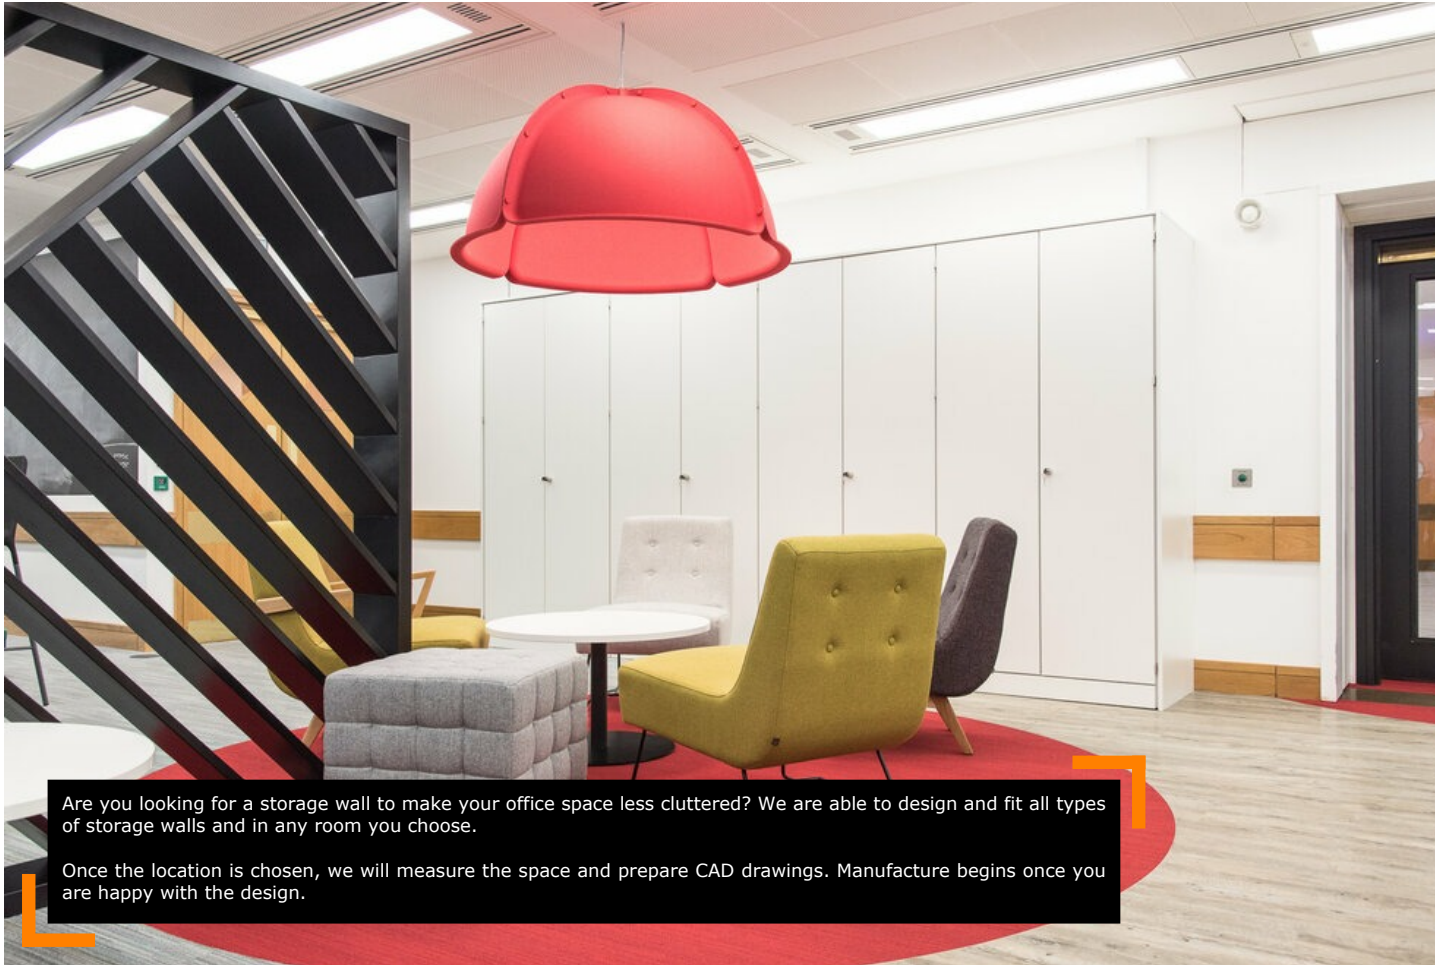

3D-rendered visuals provide an outstanding way for you to view the design and layout of your new office furniture scheme. Why settle for the details on paper when our 3D-rendered visuals illustrate a complete walkthrough of the space, bringing every aspect of your new interior to life.

Here you will be able to see the setting as it will look for real, down to every little nuance and accent. 3D architectural visualizations are the way to go when you want a 100% understanding of the look and feel of your new office furniture layout.

## RENDERED VISUALS

# STORAGE WALL

Are you looking for a storage wall to make your office space less cluttered? We are able to design and fit all types of storage walls and in any room you choose.

Once the location is chosen, we will measure the space and prepare CAD drawings. Manufacture begins once you are happy with the design.

## **STORAGE WALL**

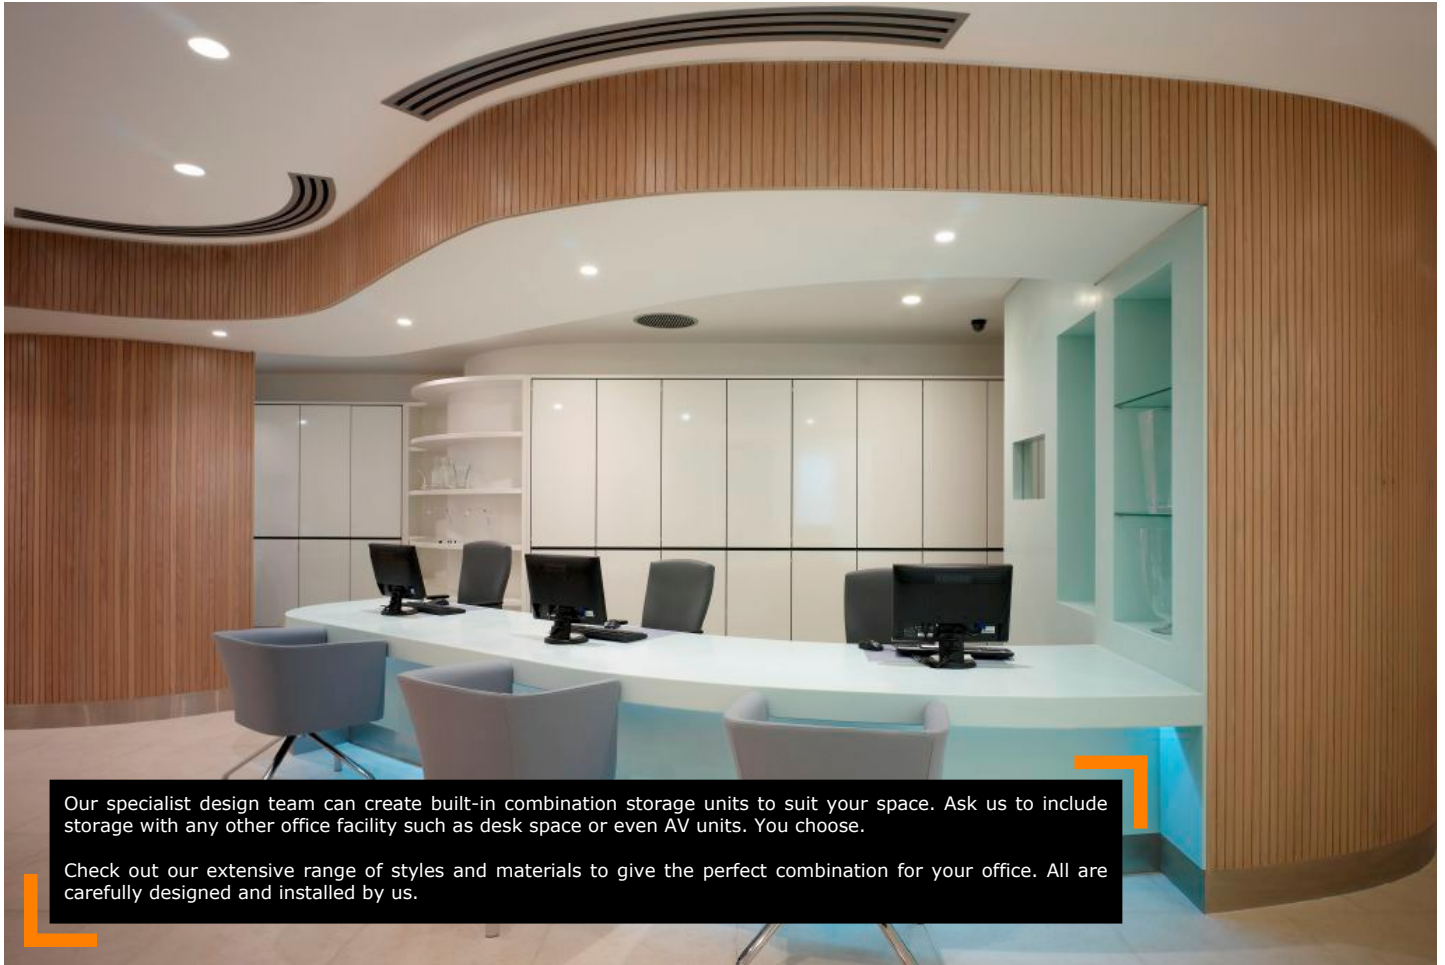

Storage walls can be freestanding or built into an existing surface. Our clever design means that you will have plenty of storage.

Not only will it be a functional wall but also attractive to look at.

Ref: PP TF 1

# COMBINATION STORAGE WALL

Our specialist design team can create built-in combination storage units to suit your space. Ask us to include storage with any other office facility such as desk space or even AV units. You choose.

Check out our extensive range of styles and materials to give the perfect combination for your office. All are carefully designed and installed by us.

# MEDIA WALL

Media walls can be situated within any room in the office but are particularly popular in boardrooms. The wall can hold whatever electronic devices you choose, including TVs and AV equipment.

Our designers will create the type of media wall you need to provide a stunning multi-functional area. The wall can also include space for storage.
